

Cable Storage Frame SZK-K series - compact

Compact cable storage frame used for arranging and safely storing fiber optic cables overlength on poles. It provides a safe storing of the line and subscriber cables while maintaining the proper bending radius.

with additional equipment

features:

- provides a safe storing of the line cable (on the inside) and subscriber cable (on the outside) while maintaining the proper bending radius,
- designed for mounting on a pole or a wall,
- installation of a cable storage frame on a pole using a stainless steel tape,
- the simple design ensures easy and quick assembly, as well as trouble-free access to the stored cabling,
- the holes of the frame allows for the installation of a pole spacer,
- enabling the installation of a pole-mounted fiber optic enclosures i.a. FDB-0212G-C,
- frame is protected by paint with increased resistance to weather conditions,
- Magnelis® sheet is the only metallic coating certified for use in a C5 environment, which provides durability and protection against corrosion.

equipment ordered separately:

- distance arm: 15 cm, 20 cm, 25 cm,
- mounting kit (4x wall anchors),
- stainless steel tape,
- buckles for stainless steel tape,
- stainless steel banding machine.

standards and certificates:

- flammability class V0 acc. UL 94,
- PN-EN 62262 - impact protection degree IK 10,
- REACH Regulation No 1907/2006/EC,
- RoHS 2011/65/UE.

*The manufacturer reserves the right to make modifications and improvements to the product.
Therefore, the products shown in the illustrations and photographs may differ slightly from the actual state.*

Cable Storage Frame SZK-K series - compact

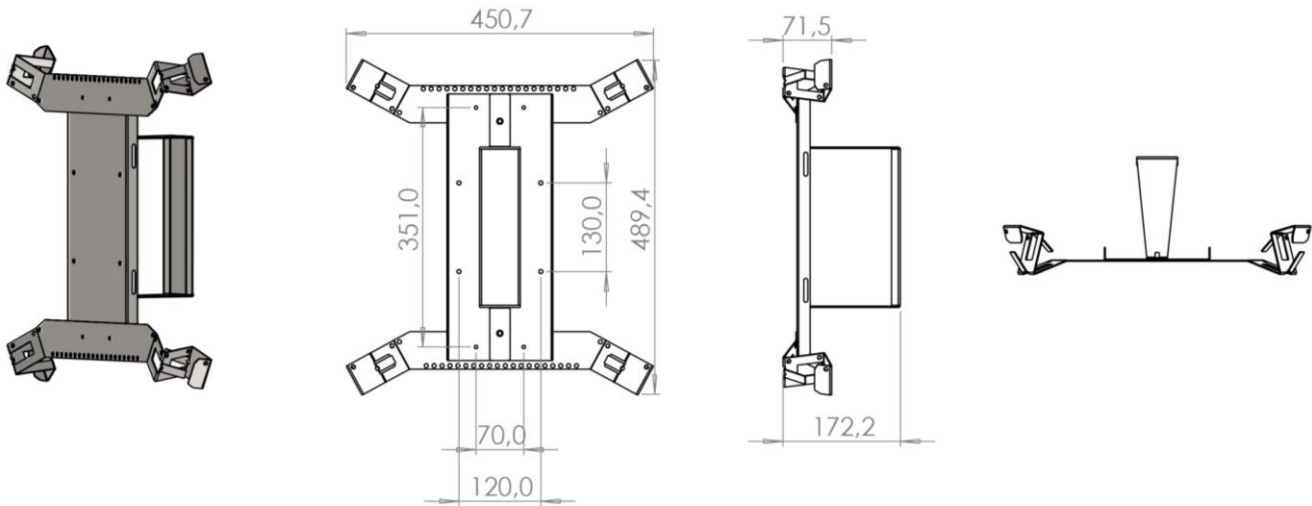

technical specifications:

SZK-K	45x49
dimensions [width x height x depth][mm]	450 x 490 x 70
thickness [mm]	1.5
adjustment	NO
mounting type	indoor/outdoor, wall-mounted/on pole
temperature resistance [°C]	from -40 to +70
impact protection degree IK	IK 10
flammability class	V0 acc. UL 94
weight [kg]	~1.6
material	powder painted Magnelis® sheet
available colors	RAL7035
