### features:

- rack cabinet is designed for wall mounting in offices, network server rooms and CCTV control rooms,
- rack solution allows the installation of devices adapted to the 19-inch standard,
- cabinets are available in various sizes and configurations, which allows for optimal cable management and safe storage of network equipment,
- guarantees quick and trouble-free access to devices, which significantly improves maintenance,
- design of the cabinet ensures proper heat dissipation which protects the devices from overheating,
- rack cabinet equipped with doors locked with a key, key code depending on preferences can be repeatable or different,
- maximum opening angle of the front door up to 120°,
- durable and reliable construction allows for easy and fast wall installation,
- there are various options for inserting cables in the rear part of the cabinet, we can inset them both from the top and from the bottom after removing the cap,
- Magnelis® sheet is the only metallic coating certified for use in a C5 environment, which provides durability and protection against corrosion.

### elements of equipment:

- grounding kit,
- mounting kit (4x wall anchors).

### standards and certificates:

- flammability class V0 acc. UL 94,
- PN-EN 60529 - ingress protection degree IP 20,
- PN-EN 62262 - impact protection degree IK 10,
- REACH Regulation No 1907/2006/EC,
- RoHS 2011/65/UE.

*The manufacturer reserves the right to make modifications and improvements to the product.  
Therefore, the products shown in the illustrations and photographs may differ slightly from the actual state.*

### TPR series - indoor

#### technical specifications:

TPR-19"	6U			
dimensions [width x height x depth][mm]	560 x 320 x 410	560 x 320 x 410	560 x 320 x 600	560 x 340 x 600
rack standard	19"			
rack unit height [U]	6			
rack mounting depth [mm]	315		500	
number of rack rails	2x front			
type of cable entry	breakable cable slot / hole cap			
diameter of cable entry [mm]	8x ø 38mm or 8x ø 29mm ( 4x top / 4x bottom )			60 x 180 ( 1x top / 1x bottom )
type of door	single door			
front door construction	glass	solid		
removable side panels	NO			
thermostat	NO			
active ventilation	2 spaces for a ø 125mm fan with mounting holes on the side panels			
passive ventilation	2 ventilation holes on the sides, no rear cover			
grounding details	door			
mounting type	indoor, wall-mounted			
temperature resistance [°C]	from -40 to +70			
ingress protection degree IP	IP 20			
impact protection degree IK	IK 10			
flammability class	V0 acc. UL 94			
weight [kg]	~8		~11	
material	powder painted Magnelis® sheet			
available colors	RAL7035
