.....
address

Dear Sir or Madam,

FILMAT GRZEGORZ SIEWIERA hereby declares that all products are compliant with the substance restrictions of EU Directive 2011/65/EU for the Restriction of the use of Hazardous Substances in electrical and electronic equipment (ROHS) including the amendment under Commission Delegate Directive (EU) 2015/863.

This declaration is based on the best of our knowledge, acquired through diligent inquiries conducted with our suppliers. It accurately represents our current comprehension derived from the information provided by our suppliers. It is important to acknowledge that this information is subject to potential revisions. It should be noted that this statement does not constitute a quality agreement. Products containing lead are covered by exemption (i.e. 6a, 6al, 6b, 6bll, 6c, 7a, 7cl). FILMAT GRZEGORZ SIEWIERA consistently utilizes lead-free soldering materials, unless the use of lead-containing soldering materials is necessitated by specific customer requirements or technical considerations such as products designed for aerospace and defense applications.

The products have been designed, produced and examined according to:

- ISO 9001:2015 for management systems of quality.

The RoHS status of many of our products is listed on data sheets. If you have any questions relating to RoHS compliance of FILMAT GRZEGORZ SIEWIERA products, please do not hesitate to contact with us.

address

EU Regulation No 1907/2006/EC of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) is a regulation of the European Union, adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals, while enhancing the competitiveness of the EU chemicals industry.

REACH also focuses on a specific group of hazardous substances, named "Substances of Very High Concern" (SVHC), by establishing specific obligations regarding them. A list of VHC Substances called "Candidate Substances" is updated twice per year by ECHA (the European Chemicals Agency). The presence of such substances in final products put on the market, should be notified to the customer if exceeding the 0.1% by product weight.

Based on our best knowledge and the information from our suppliers we confirm FILMAT GRZEGORZ SIEWIERA products do not contain any of these SVHCs above the threshold of 0.1% by weight. We support the goals of the REACH program, which are consistent with our own vision towards responsible use and handling of chemicals and hazardous substances.
